VOLUME 25

1975

PUBLISHED BY

THE JAPANESE PHARMACOLOGICAL SOCIETY

Bimonthly

Secretarial Office: *Department of Pharmacology, Faculty of Medicine, University of Tokyo, Tokyo*
Editorial Office: *Department of Pharmacology, Faculty of Medicine, Kyoto University, Kyoto*

CONTENTS OF VOLUME

Number 1 February 1975

PAGE

Metabolic studies on metiazinic acid I: Absorption, distribution, excretion and metabolism in rats and rabbits. Haruo Kitagawa, Kaoru Miyazu, Minoru Tsuruta, Hisashi Satoh, Tetsuyoshi Yokoshima, Toshio Nanbo, Minoru Takemoto, Koji Ushioda and Masaru Hasegawa 1

Studies on pharmacological and biochemical properties of deamino-dicarba-[Gly^7]-oxytocin (Y-5350). Taichi Oka, Akira Nakanishi and Tadao Okada 15

Effects of beta-adrenergic receptor blocking agents on blood pressure in conscious hypertensive rats. Kenichiro Nakao, Hitoshi Kato and Keijiro Takagi 25

Effect of ascofuranone on serum lipids of rats fed a cholesterol rich diet. Tomoyoshi Hosokawa, Koji Suzuki, Tsuneo Okutomi, Mikio Sawada and Kunio Ando 35

Inflammation of the skin I: Phospholipid metabolism in some experimental inflammations of mouse skin. Hisashi Takasu 41

Central cholinergic activation by chlorfenvinphos, an organophosphate, in the rat. Yoshitsugu Osumi, Hiroshi Fujiwara, Ryozo Oishi and Shuji Takaori 47

Junction potentials in response to ortho- and anti-dromic stimulation of hypogastric nerve in mouse vas deferens. Hironori Nakanishi and Hiroshi Takeda 55

Antiphosphodiesterase activity and nonspecific smooth muscle relaxation tested on intestinal smooth muscles. Nobuhiro Inatomi, Issei Takayanagi and Keijiro Takagi 63

Short Communications

Activities of hepatic microsomal electron transport system in prolonged ethanol-treated rats. Suehiro Nakanishi, Eiko Shiohara, Miyoko Tsukada and Go Kinoshita 71

Effect of 4-pentenoic acid on lipids in plasma and liver of rats. Tadashi Fujita and Masahide Yasuda 73

Inhibition by hydroxyurea of the rebound of granulomatous inflammation following withdrawal of glucocorticoid therapy. Kuk Hyun Shin, Hideo Nakagawa and Susumu Tsurufuji 76

Inhibitions by colchicine, vinblastine and cytochalasin-B of the stimulatory effect of the cytoplasmic fraction on catecholamine release from adrenomedullary granules. Motoo Oka, Takeshi Kashimoto and Futoshi Izumi 79

Antihypertensive effects of β-blockers in hypertensive rats. Keisuke Takeda, Hiroshi Sakurai and Shoichi Imai 82

Number 2 April 1975

Difference in hypotensive response to L-dopa and a decarboxylase inhibitor in various

forms of hypertensive rats. Keiji Nakamura, Susumu Mizogami and Kazuo Nakamura **85**

Mechanisms of central hypotensive activity of L-dopa and a peripheral decarboxylase inhibitor in doca-salt hypertensive rats. Keiji Nakamura and Kazuo Nakamura ... **93**

Topical anti-inflammatory effects of AF 2071: A comparative study with bendazac and corticosteroids, both alone and associated. R. Lisciani, G. De Feo, V. Cioli and S. Putzolu **101**

Studies of urchi-toxins: Separation, purification and pharmacological actions of toxinic substances. Akira Kimura, Hiromi Hayashi and Masaaki Kuramoto **109**

A simple avoidance procedure for testing psychotropic drugs in mice. Makoto Oka and Masanao Shimizu **121**

Effects of vasoactive agents on the canine fore-limb venous perfusion preparation and their modification by anti-inflammatory drugs. Yoshikazu Yamatake, Hitoshi Kato and Keijiro Takagi **129**

Interactions of Cd^{++} and cysteine on Ca^{++} content and contractility of isolated aortas and cardiac muscles. Noboru Toda, Hachiro Usui, Mieko Kimura and Yoshinori Itokawa **141**

Studies on the function of cell membrane (10th report): Effects of CCl_4 on the marker enzyme activities and fine structures of rat liver plasma membranes and microsomes in vitro. Yasusuke Masuda, Ichiro Yano, Shigeo Sumida and Tadashi Murano ... **151**

Enzymatic deacetylation of N-acetylhistamine in animal tissues. Yasuo Endo and Yasumi Ogura **161**

Pharmacokinetic studies on the hepatotoxicity of luteoskyrin (II): Extraction and identification of ^{3}H-luteoskyrin from the liver and excreta in mice. Ikuko Ueno **171**

Effects of corticosteroids on the release of mediators in anaphylaxis of sensitized guinea pig tissues. Norio Kurihara and Katsuhiro Shibata **181**

A new microassay method for L-glutamic acid decarboxylase (GAD) activity. Hiroshi Kimura and Kinya Kuriyama **189**

Effects of hydroxylamine, sodium nitrite, ammonium sulfate and ethanol on diamine oxidase of hog kidney. Osamu Kaneko **197**

Short Communications

Influence of calcium and sodium ions on potassium induced contraction in isolated guinea-pig vas deferens kept in sucrose medium. Jiro Sugimoto and Atsuko Furumichi..... **207**

Synergism between γ-aminobutyric acid and butyrophenones administered microelectrophoretically in the Purkinje cells of the cat cerebellum. Shoji Maruyama and Tadashi Kawasaki **209**

Effects of calcium antagonists on contractile response of guinea-pig taenia caecum to carbachol in a calcium deficient, potassium rich solution. Hidenori Ohashi, Tadashi Takewaki, Nobuo Shibata and Toshiaki Okada **214**

Modulation by central serotonin of the gastric ulceration induced by water-immersion stress in the rat. Hiroshi Y. Watanabe, Hiroshi Kuno and Kazuo Watanabe **216**

Contents of prostaglandin E in the exudate of rat carrageenin granuloma. Wen-Chang Chang, Sei-itsu Murota and Susumu Tsurufuji **219**

Number 3 June 1975

Changes of tissue acetylcholine in the distended intestine. Tadashi Takewaki, Osamu Yagasaki and Iwao Yanagiya **223**

Effect of diuretics on ion transport of kidney cortex nitochondria. III. Species difference in calcium accumulation and in ethacrynic acid effect. Munekazu Gemba and Kenjiro Yamamoto **233**

Pharmacological studies of caerulein. II. The possibility of mediation through the central nervous system. Nobuo Nakamura, Shizuo Shiozaki, Yoshihisa Koyama, Tetsuo Kojima and Hirofuto Marumo **241**

An analysis of the drugs acting on cerebral energy metabolism. Gianni Benzi **251**

Toxicological approaches to the toxic metabolites of fusaria. VIII. Acute and subacute toxicities of T-2 toxin in cats. Norio Sato, Yoshio Ueno and Makoto Enomoto... **263**

Cortisol-binding protein in the cytosol of rat carrageenin granuloma. Yasuko Koshihara, Mieko Yamagishi, Sei-itsu Murota and Susumu Tsurufuji **271**

Effects of diltiazem (CRD-401) on developed coronary collaterals in the dog. Taku Nagao, Sakae Murata and Masanori Sato **281**

Sex difference in the development of fatty liver by orotic acid. Isao Negishi and Yoshio Aizawa **289**

Distribution of renin in subcellular fractions from the rabbit kidney. Shiro Morimoto, Kuniaki Tanaka and Ryoko Kitano **295**

Effects of various drugs on serum free and total tryptophan levels and brain tryptophan metabolism in rats. Heitaroh Iwata, Hiroshi Okamoto and Setsuko Koh **303**

Mechanism of histamine release by alpha-chymotrypsin from isolated rat mast cells. Junzo Sasaki **311**

Drug metabolizing function of isolated perfused liver. Tsutomu Noda, Kazunori Araki, Masao Koida and Hiroshi Kaneto..... **325**

Effect of fentanyl, a narcotic analgesic, on two components of the jaw opening reflex. Yoshiaki Nishijima and Yutaka Sakai **335**

Short Communications

Effect of orotic acid on the distribution of phosphatidylcholine [^{32}P]. Isao Negishi and Yoshio Aizawa **345**

Urinary excretion patterns of morphine in humans followed by an radioimmunoassay method. Masakatsu Takahashi, Masao Koida, Hiroshi Kaneto, Yutaka Goto and Sumitaka Haseba **348**

Dual effects a new coronary vasodilator, diltiazem, on the contractile force of the blood-perfused papillary muscle of the dog. Norio Himori, Hiroshi Ono and Norio Taira **350**

A new piperazinobiguanide series effective against syphacia obvelata in mice. K.C.

Singhal, K.P. Bhargava and S.S. Parmer 352

Direct inhibitory effect of hemicholinium-No. 3 on acetylcholine release. Fumiaki Hata, Tomohiro Matsuda and Hiroshi Yoshida 354

Number 4 August 1975

Effects of antidepressant drugs on amygdaloid after-discharge in rats. Chiaki Kamei, Yoshinobu Masuda, Makoto Oka and Masanao Shimizu 359

Protein synthesis in mouse brain during development of acute morphine tolerance. Tohru Nakajima, Hiroshi Sasano, Masao Koida and Hiroshi Kaneto 367

The stimulatory effect of the boiled supernatant on cyclic AMP formation in synaptosomes from rat cerebral cortex. Hiroshi Izumi, Hideko Oyama and Hikaru Ozawa 375

Effect of diltiazem on electrical and mechanical activity of isolated cardiac ventricular muscle of guinea pig. Hiromichi Nakajima, Masao Hoshiyama, Keiko Yamashita and Akio Kiyomoto 383

Effects of S-8527 (1, 1-bis[4′-1″-carboxy-1″-methylpropoxy)phenyl] cyclohexane), a new hypolipidemic compound, on platelet aggregation, adhesiveness and blood coagulation in rats. Kotaro Suzuki 393

Effect of "drugs for liver disease" on hepatotoxic action of carbon tetrachloride I. Changes of lysosomal enzyme levels and effect of protoporphyrin on the levels. Taro Ogiso, Takashi Kobayashi and Yoshio Kato 401

Effect of "drugs for liver disease" on hepatotoxic action of carbon tetrachloride II. Effect of protoporphyrin and phosphorylcholine on microsomal drug-metabolizing enzyme activities and the components in injured liver. Taro Ogiso, Takashi Kobayashi, Kazunori Kuhara and Yoshio Kato 411

Coronary vasodilatation and adrenergic receptors in the dog heart and coronary. Shoichi Imai, Takeshi Otorii, Keisuke Takeda and Yumi Katano 423

Comparison of the effects of norepinephrine and acetylcholine between intraarterial and extravascular administration to the isolated, blood-perfused canine atrium. Shigetoshi Chiba, Youichi Yabuuchi and Koroku Hashimoto 433

Modifications of responses to adrenergic drugs in arterial strips by treatment *in vivo* with ephedrine and reserpine. Tatsuo Furukawa and Hideji Morishita 441

Physical dependence on morphine, phenobarbital and diazepam in rats by drug-admixed food ingestion. Saizo Yanaura, Eijiro Tagashira and Tsutomu Suzuki 453

Effects of several β-blockers on blood pressure in the rat. Junnosuke Yamamoto, Atsushi Sekiya and Hiroshi Maekawa 465

Short Communications

Differences in the effect of ephedrine isomers on blood pressure in rats. Haruo Kitagawa and Haruo Saito 473

Effects of fasting on the Henle's loop function of rat kidney. Yoshimichi Murayama and Fuminori Sakai 475

Potentiating effects of C-terminal octapeptide of cholecystokinin on contractility of

isolated guinea-pig gallbladder. Motohatsu Fujiwara and Hiroshi Azuma 478

Prolongation of the action potential plateau of embryonic chick hearts organ cultured in the presence of cyclic AMP. Koki Shigenobu and Nick Sperelakis 481

Potentiation by phosphatidylserine of calcium-dependent histamine release from rat mast cells induced by concanavalin A. Katsumi Sugiyama, Junzo Sasaki and Hidemasa Yamasaki 485

Different responses to prostaglandins E_1 and E_2 of isolated canine coronary arteries. Noboru Toda, Hachiro Usui and Koichiro Sakae 487

Different inotropic responses to adenosine on the atrial and ventricular muscle of the dog heart. Shigetoshi Chiba and Norio Himori 489

Number 5 October 1975

Sympathomimetic actions of reserpine administered during treatment with dopamine in the dog. Nobufumi Ono and Tatsuo Furukawa 493

Drug-induced adrenaline release and blood glucose in rats: 3-Phenyl-5-(2-piperidinoethyl)-isoxazole citrate. Toshio Yoshizaki, Kanya Tonda, Takeshi Kitakaze and Yasunao Ogawa 501

Inhibitory effects of caffeine on developed tension and calcium movement in guinea pig taenia coli in high-K medium. Tetsuyuki Nasu, Yukio Ishida and Norimoto Urakawa 507

Inhibition of dopamine β-hydroxylase in blood vessels by picolinic acid derivatives in vivo and their antihypertensive effects. Hiroyoshi Hidaka, Fumiko Shoka, Yoshio Hashizume, Nobutaka Takemoto and Masahiro Yamamoto 515

Studies on mode of antagonism between adrenergic β-mimetics and β-blocking agents (1): β-Blocking action of mescaline and its derivatives. Yoshio Iwasawa, Motoaki Ohashi, Shiro Yamamura, Seiichi Saito and Akio Kiyomoto 525

Interaction of Ca, Mg and ATP in glycerinated taenia coli of guinea pig. Tetsuyuki Nasu and Yukio Ishida 535

Analytical study of acquisition on free-operant avoidance response for evaluation of psychotropic drugs in rats. Hisashi Kuribara, Kiyoko Okuizumi and Sakutaro Tadokoro 541

Antiarrhythmic effect of aprindine on several types of ventricular arrhythmias. Motohiko Ueda, Sadatoshi Kimoto, Saburo Matsuda, Masaru Kawakami, Eiichi Morishige, Shoichi Matsumura and Hiroshi Takeda 549

Local anesthetic activity of 1-(morpholino or piperidino)-2-propanol derivatives. Mitsugu Hachisu and Shigeo Yamada 563

Positive and negative chronotropic response of the S-A node to oxyfedrine. Kazushige Sakai, Michitaka Akima, Shigeru Sugano and Yasuyuki Shiraki 573

The regulation of respiration of guinea pig taenia coli in high-K medium: The role of nicotinamideadenine dinucleotide, adenosine diphosphate and Ca^{++}. Shuji Tsuda, Norimoto Urakawa, Yukio Saito and Jun-ichi Fukami 583

Regulation of tyrosine hydroxylase activity by prostaglandin E_1 in guinea pig adrenal gland. Yoko Nakashima, Hiroo Sanada, Ryokuero Suzue and Shoji Kawada **591**

Short Communications

Positive inotropic and chronotropic effects of 8-substituted derivatives of 3′,5′-cyclic AMP. Issei Matsubara and Shoichi Imai **599**

Bioassay of acetylcholine with a thin muscle strip of the Japanese medical leech: A preliminary note on the reappraisal of the availability of this method. Ken Kadota and Mitsuhiro Nagata **602**

Studies on the active principles of magnolia bark: Centrally acting muscle relaxant activity of magnolol and hōnokiol. Kazuo Watanabe, Hiroshi Y. Watanabe, Yoshiaki Goto, Nobuyuki Yamamoto and Masao Yoshizaki **605**

Stimulatory effect of the water extract of bamboo grass (Folin solution) on gastric acid secretion in pylorus-ligated rats. Susumu Okabe, Koji Takeuchi, Keijiro Takagi and Madoka Shibata **608**

A rapid and simple determination of histamine and polyamines. Yasuo Endo and Yasumi Ogura **610**

Effects of 6-hydroxydopa and 5,6-dihydroxytryptophan treatment on spontaneous motor activity and brain monoamines in mice. Tomio Segawa, Kyoko Sakamoto and Fumiko Naitoh **612**

Changes in the self-stimulation behavior by intraventricular injection of epinephrine, norepinephrine, isoproterenol and dopamine. Kazuo Hasegawa **616**

Number 6 December 1975

The role of bronchoconstriction in cough reflex. Saizo Yanaura, Tomoo Nishimura, Mitsuo Sakamoto and Tetsuo Sasao **621**

5-Hydroxytryptamine receptors in uterine smooth muscle. Fikry H. Osman and E.M. Ammar **631**

The modification of inotropic action of ouabain by 6-hydroxydopamine and α-methyl-*p*-tyrosine in dogs. Isami Shudo, Hideya Saito and Tsuneyoshi Tanabe **639**

Effects of passive immunization with rabbit anti-phenobarbital IgG on cyclobarbital-induced sleeping time and hepatic enzyme activities of C3H mice. Hiroko Satoh and Yukio Kuroiwa **645**

Effects of polyamines on the central nervous system. Tsukasa Sakurada, Kenji Onodera, Takeshi Tadano and Kensuke Kisara **653**

Influence of various factors and drugs on cysteamine-induced duodenal ulcers in the rat. Yuichi Fujii and Yasuo Ishii **663**

Effects of antitussive drugs on the activity of the recurrent laryngeal nerve in cats. Masahiro Mori and Yutaka Sakai **671**

Incidence of epinephrine-induced pulmonary edema in rabbits and accompanying metabolic changes. Naohisa Ishikawa, Yasumichi Hagino and Tatsuro Shigei **681**

Effects of L-glutamine on acetylsalicylic acid-induced gastric lesions in normal and cirrhotic

rats. Susumu Okabe, Koji Takeuchi, Tetsuro Urushidani, Toshihiko Naganuma and Keijiro Takagi 687

Separation of cholinergic proteolipids from quenched rat cerebral cortex and resolution of properties at low temperature. Futoshi Izumi and Simon Freed 693

Effects of various agents on synaptosomal adenylate cyclase activity in the absence and presence of the boiled supernatant. Hiroshi Izumi and Hikaru Ozawa 709

Difference between inhibitory actions of papaverine and dehydroepiandrosterone on the isolated guinea-pig ileum. Yukio Ishida, Noriaki Kondo, Shunzo Aihara and Hideyuki Nakagawa 719

A double column procedure for the simultaneous estimation of norepinephrine, normetanephrine, dopamine, 3-methoxytyramine and 5-hydroxytryptamine in brain tissue. Tadahiko Karasawa, Kiyoshi Furukawa, Kouichi Yoshida and Masanao Shimizu... 727

Effect of taurine on alteration in adrenal functions induced by stress. Kazuo Nakagawa and Kinya Kuriyama 737

Studies on caerulein (FI6934): Absorption, distribution, metabolism and excretion of caerulein. Tomonobu Tokiwa, Ieaki Uemura, Hironori Murakami, Sonoko Tsuruoka, Masami Kaneko, Kazuko Ogawa and Tomoko Manzai 747

Inhibition of hypersensitivity reactions by soluble derivatives of baicalein. Hiroichi Nagai, Kunio Osuga and Akihide Koda 763

Regional changes in brain catecholamine content following administration of guanethidine to neonatal rats. Yasuyuki Nomura, Fumiko Naitoh and Tomio Segawa 773

Short Communications

Analgesic and anti-inflammatory actions of 1-(m-chlorophenyl)-3-carbamoyl-5-methoxypyrazole derivatives. Kaito Tsurumi and Hajime Fujimura 781

Correlation between the 5-hydroxytryptamine contents in the brain and degrees of sensory, and locomotor activities in the rat. Tsutomu Kameyama, Tsuyoshi Shigehisa and Toshitaka Nabeshima 784

Pre- and post-synaptic origin of lithium-induced acute blockade on adrenergic transmission in rabbit heart. Yoshimi Misu, Yasushi Kuraishi and Hiroshi Takagi 787

Quantitative aspect of acid secretion response of isolated bullfrog gastric mucosa preparation: Effect of secretagogues and inhibitors. Yoshiaki Goto and Kazuo Watanabe 790

Individual differences in the occurrence of a lipid peroxidation inhibitor in rat liver soluble fraction. Tetsuya Kamataki, Kazuo Aikawa, Naoki Ozawa and Haruo Kitagawa 793

Adrenaline release and blood glucose 501

SUBJECT INDEX

Absorption 1
Acetylcholine 354, 433, 602, 693
Acetylcholine release 223
Acetylcholine synthesis 223
N-Acetylhistamine 161
Acid secretion 790
Acquisition 121, 541
Active avoidance 121
Adenosine 489
Adenylate cyclase 209, 375
Adrenal functions 737
Adrenaline 501, 681
Adrenergic drug 441
Adrenergic β-mimetics 525
Adrenoceptors in the coronary 423
AF-2071 101
Alprenolol 465
Ameroid 281
Aminoethylisothiouronium bromide (AET) 189
Ammonium sulfate 197
Amobarbital 251
Amygdaloid after-discharge 359
Analgesia 781
Anaphylaxis 181
Angiotensin II 295
Anthelmintic activity 352
Antiarrhythmic 549
Antidepressant 121
Anti-inflammation 781
Anti-inflammatory drug 129
Anti-phenobarbital IgG 645
Antipyretic analgesics 501
Antitussive 621
Antitussive drugs 671
Aprindine 549
Ascofuranone 35
Aspirin 687
Aspirin esterase 687
Assay 727
Auditory threshold 784
Avoidance response 541

Baicalein derivatives 763
Bamboo-grass 608
Bamethan 251
Bemegride 251
Bendazac 101
1,2-Benzisoxazole-3-acetamidoxime 359
Bile excretion 325
